

MERIVOBX

Metal drawer system

125 lb and 170 lb load rating

Available colors:  Indium gray (IG-M)  Silk white (SW-M)

One platform, endless possibilities

The MERIVOBX drawer system gives cabinetmakers a streamlined platform that delivers consistent performance, quick assembly and a cohesive look across an entire home. Clear, tool-free adjustments help installers achieve precise alignment. MERIVOBX gives cabinetmakers the ability to build solutions that work for everyone without adding complexity.

Faster assembly, fewer parts

MERIVOBX bottoms and backs share the same width and a uniform drilling pattern across all designs, simplifying manufacturing and assembly.

3-dimensional adjustment option

Height, side and tilt adjustments are clearly labeled and easily accessible. Precise adjustment options ensure you can achieve perfect gap alignment every time.

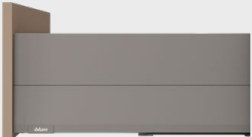

Easy front attachment and removal

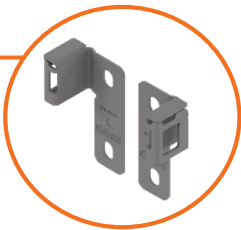

Simply clip the front on, even with the drawer closed. Wide or heavy fronts can be removed by one person thanks to the holding position.

MERIVOBX overview

- Full extension drawer system with soft-close BLUMOTION
- Compatible with TIP-ON BLUMOTION and SERVO-DRIVE
- Three-dimensional drawer front adjustments: side-to-side adjustment, height adjustment, tilt adjustment
- Interior roll-out options available
- Bottom and back are the same width making it easy to streamline the manufacturing process
- All three E height applications use the same drilling dimensions on the drawer front to speed up assembly workflows

Application	Parts required	Features
 M Height drawer 91 mm (3-9/16")	Cabinet profile set Drawer profile set Rear fixing bracket set (M Height) Front fixing brackets	Standard metal drawer, base drawer for all E Height applications
