Choose your own front, bottom and back to pair with our range of height and color options for LEGRABOX to create a clean, functional drawer.

The engineering behind LEGRABOX is designed to simplify cabinet construction. Consistent components and precise technology help cabinetmakers achieve quick and predictable results. Digital tools through Blum's E-SERVICES portal provide the machining data needed to quickly produce drawer bottoms and backs with CNC accuracy.

LEGRABOX C height in orion gray
With LEGRABOX's deep drawer heights, tall items stay organized and within easy reach—no more losing them in the back of the cabinet.

LEGRABOX in the kitchen

The kitchen is where drawers work the hardest. LEGRABOX is designed to support a wide range of kitchen storage applications—from narrow drawers like SPACE TWIN to tall pantry storage with individual drawers keeps contents visible and easy to reach. Available in multiple heights and finishes, LEGRABOX can blend perfectly with appliances to complement the style of the room.

LEGRABOX throughout the home

Storage needs extend far beyond the kitchen. LEGRABOX works beautifully in all living spaces throughout the home. Using a consistent drawer system across rooms creates a seamless experience while helping cabinetmakers maintain predictable installation and reliable performance in every project.

In the study

One box provides everything needed from Blum to build a drawer, while still allowing you to customize it with your own front, back and bottom.

LEGRABOX M height in silk white
From the study to the dining room, a range of colors, heights and applications makes it easy to create storage that fits each space.

In the living room

Mix and match materials to create a drawer that fits both the space and what needs to be stored. Combine with AMBIA-LINE so everything stays cleanly organized.

Built for humid rooms in bathroom environments where humidity and daily use are part of everyday life, durability matters. Blum products are designed with a protective coating that helps guard against rust, so corrosion is not expected under typical indoor conditions—including spaces like bathrooms. This means drawers continue to perform reliably over time, even in environments where moisture is present, giving you confidence that the function and appearance will hold up through everyday use.

In the bedroom

Quiet, smooth drawers make everyday routines easier. LEGRABOX brings refined motion and reliable soft close to bedroom storage, whether in dressers, nightstands or built-in cabinetry. Add TIP-ON BLUMOTION or SERVO-DRIVE for handle-free applications.

LEGRABOX C height in carbon black
Designed for wide or larger drawers, it brings stability and organization to items people use most.

In the closet

Closets benefit from storage that is both accessible and organized. With a variety of drawer heights available, LEGRABOX supports everything from shallow accessory drawers to deeper storage for folded garments. Incorporate AMBIA-LINE organization systems so items are visible and easy to manage.

Cabinet solutions

LEGRABOX makes it easy to maintain visual harmony across cabinetry throughout the home. A range of drawer heights and coordinated finishes support many storage applications while keeping a clean, consistent aesthetic from one space to the next.

SPACE TOWER

Individual drawers within tall cabinets or pantries make it easy to see contents from multiple sides while keeping items organized and accessible. Each drawer opens fully, making it simple to view and remove stored items.

*Photo for inspiration. Some items shown may only be available by special order.

SPACE TWIN

LEGRABOX makes it easy to transform narrow spaces into highly functional storage. With slim drawer sides, SPACE TWIN applications allow storage in areas that might otherwise go unused. Even in tight widths, drawers open effortlessly to provide clear visibility and access to oils, spices or baking sheets, putting every available inch of space to work.

SPACE STEP

SPACE STEP pairs seamlessly with LEGRABOX to add hidden functionality to cabinetry. A sturdy step integrated into the toe kick area of the cabinet helps users comfortably reach higher storage areas, while a drawer beneath the step provides additional space for storing items.

Organization

AMBIA-LINE interior organization is designed specifically for LEGRABOX drawers, creating a precise fit that keeps frames securely in place without sliding. Adjustable dividers allow storage to adapt as needs change, while dedicated solutions for flatware, utensils and deep drawers help keep everyday items organized and easy to access.

Plate holders

Plate holders are adjustable to fit different plate sizes and can securely store up to 12 plates. Rubber feet keep the holder from sliding as drawers open and close. Storing plates in a drawer makes them easier to lift and put away rather than storing in overhead cabinets.

Motion technologies for LEGRABOX

LEGRABOX C height in carbon black
Combine LEGRABOX with TIP-ON BLUMOTION or SERVO-DRIVE for effortless opening.

 © 2026 Blum, Inc.

BLUMOTION

BLUMOTION soft-close technology is standard with each LEGRABOX drawer. The system adapts to the weight and force of the drawer, delivering a consistent, controlled closing for everyday comfort.

TIP-ON BLUMOTION

TIP-ON BLUMOTION ensures easy opening of LEGRABOX drawers with just a light press of the drawer front. Drawers close easily and fully with a gentle, fluid push.

SERVO-DRIVE

Drawers open automatically with just a light touch of the drawer front thanks to the SERVO-DRIVE electrical opening feature. SERVO-DRIVE is an excellent solution for handleless designs.
