

MOVE^{TO}

Sophisticated runner system

Synchronized feather-light glide

MOVENTO's integrated rack and pinion system keeps the drawer moving smoothly and evenly every time it opens. This proven technology has been trusted for years, and with a wide range of lengths and load ratings, cabinetmakers can rely on one runner for many different applications.

Easy, tool-free adjustments

- Tool-free front and rear side-to-side adjustment
- Tool-free rear tilt adjustment
- Tool-free front height adjustment
- Elongated holes for depth adjustment
- Locking device options for convenient add-on depth adjustment

Heavy load capacity

The cabinet profile has increased stability along the length of the runner. Even wide, heavy drawers experience a smooth running action, thanks to a high dynamic load capacity of 110 and 155 lbs.

Static load capacities

- 125 lb for MOVENTO 763 standard duty series
- 135 lb for MOVENTO 769R heavy duty series
- 170 lb for MOVENTO 769. heavy duty series

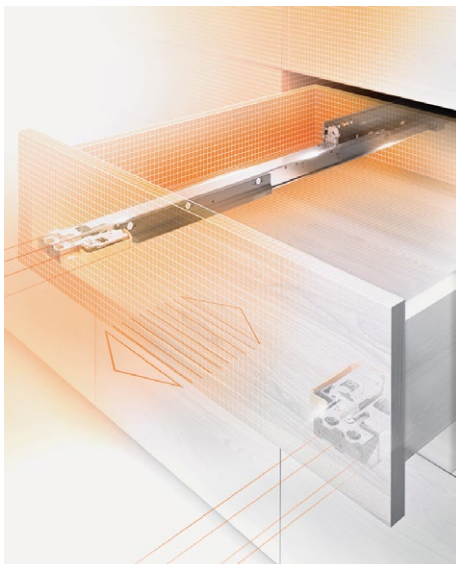

- Available in standard and heavy duty versions
- Integrated synchronization keeps the drawer moving smoothly
- Light opening force of less than 5 lb force
- BLUMOTION housing protects the mechanism from dust and debris
- Full extension concealed runners with BLUMOTION soft-close
- H and . series for drawers up to 5/8" side material thickness
- Bottom mount holes on all standard duty lengths
- Pre-assembled waste/recycle sets with 3/4" over extension for easy removal of waste bins
- Designed to be used with optional TIP-ON BLUMOTION or SERVO-DRIVE touch-to-open solutions

MOVENTO

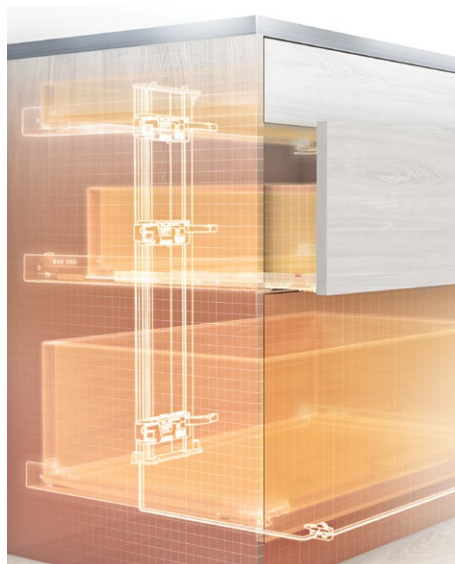

TIP-ON BLUMOTION

TIP-ON BLUMOTION for MOVENTO creates a simple solution for touch-to-open drawers. A non-electrical drive unit is added to the runner, allowing the drawer to open with a light press on the drawer front.

BLUMOTION

BLUMOTION adapts to different weights and closing forces for a smooth, silent close every time. From small top drawers to wide, deep drawers, it delivers the soft-close performance you expect from Blum.

SERVO-DRIVE

SERVO-DRIVE enables drawers to open automatically with just a touch of the drawer front or with a light pull of the handle. This unique feature is based on an electrical drive unit that, once activated, opens the drawer for you.

ORGA-LINE

With this adjustable organization system, everything is stored where it can be seen. The customizable system is made of stainless steel trays and dividers, making it easy to adapt to any drawer configuration. The trays are also dishwasher safe, so keeping them clean is easy.

Applications

Deep/wide drawers

Waste/recycle set

Pull-out shelf lock
